www.swissgrip.com.au

Swiss GriP Non-Slip installed to a wide range of surfaces at ANZ Global Headquarters in Docklands, Melbourne:
Over 2000m2 of timber, vinyl, tiles and concrete floors

Swiss GriP Non-Slip - Das Original

We are the global leader in certified non-slip coatings, drawing on more than 25 years of experience in development and manufacturing. Our durable coatings prevent slips, trips and falls in more than 50 countries and our references include leading hotels, hospitals, aged care facilities as well as public buildings and residential properties.

With our Swiss-made coatings we commit to the highest possible standards of quality and slip-resistance. Because Swiss GriP coatings are certified in every national standard for slip-resistance, we are uniquely placed to meet the needs of customers locally and globally.

Swiss GriP Non-Slip installed at Knox Grammar School in Sydney:
600m2 of pool area (tiles)

We know coatings, we know slip-resistance

The Swiss GriP range of coatings combine durability and performance with the best slip-resistance in wet and dry conditions.

Design

Our transparent coatings allow you to focus on design without compromising on safety. With unmatched adhesion to a wide range of surfaces, Swiss GriP has the right solution for every situation. Moreover, our tinted coatings can be used for the demarcation of areas while also providing slip-resistance.

Certified world-wide

Swiss GriP coatings are certified in every leading slip-resistance standard. We provide test reports from independent institutions and experts like CSIRO, TÜV, Empa, and Satra. Therefore, we promise the best-slip resistance in any situation. No other solution is backed by science like Swiss GriP.

CSIRO Certified: AS 4586-2013

Swiss GriP coating are certified by CSIRO Australia in the Australian standard for slip resistance (AS 4586-2013) in both wet and dry conditions with slip rating of P3 up to P5, R11 and R12.

Only the best is good enough
when it comes to safety

Eliminating slips and falls in every situation

The SWISS GriP product range can be used in a wide range of applications. It will meet all the protective and decorative standards while providing excellent durability. Our coatings are used in healthcare, hospitality, as well as residential and industrial applications.

Safety - Prevent slips, trips and falls on any surface

Non-etching - Durable, protective non-slip coating

Certified - Meeting and exceeding safety standards

Design - Transparent, UV-resistant coatings. Non-yellowing

- Factories, Plants and Warehouses

Swiss GriP is the only provider of non-slip solutions in Australia to provide a **P3, P4 or P5 slip-rating warranty** on all installations.

Swiss GriP Non-Slip Case Studies

Non-slip safety solutions are constantly in demand — especially where durable, certified solutions are required. Our premium quality non-slip coatings prevent slips, trips, and falls all around the world. In impressive hotels, public buildings, private residences and luxury yachts. Whatever your requirements, you will find what you are looking for in our certified, premium-quality product range.

Global ANZ Headquarters Melbourne

The ANZ Global Headquarters at Docklands, Melbourne houses about 6500 workers.

After a successful test, Swiss GriP has been applied to over 2000m² of various flooring types to protect staff and visitors from slips and falls. ANZ selected our P3 for dry areas and our P4 coating for wet areas such as bathrooms, loading docks and kitchens.

NSW Department of Primary Industries, Orange, NSW

Swiss GriP is installed at the entrance and lobby of the NSW-Department of Primary Industries in Orange, NSW. The existing tiles were upgraded with our premium coating.

Part of an extensive maintenance project by ADCO Constructions, was the installation of Swiss GriP to the entry areas of the NSW-Government building.

Our solution was preferred over anti-slip treatments which failed to meet the required slip-ratings.

Swiss GriP Non-Slip P3, P4 & P5

Product Description

Swiss GriP Non-Slip Transparent
Dual-component polyurethane floor coating
Water-based, UV-resistant. Flexible and durable.

Swiss GriP Non-Slip P3

- Article Code : S 9520
- Available in 5m2, 15m2 and 185m2 packs

Swiss GriP Non-Slip PRO P4 / P5

- Article Code: S 9515
- Available in 15m2 and 185m2 packs
